EXECUTIVE SUMMARY

Professional Overview

- A motivated and outcome-driven individual with strong foundations in **Artificial Intelligence, Machine Learning, Back-end development, Automation tools and Embedded engineering**, experienced in building end-to-end systems ranging from ML models and computer vision pipelines to chatbot-based platforms, automation solutions, and IoT devices. Adept at collaborating within multi-member teams, delivering optimized and production-ready solutions under tight deadlines.

SKILLS

Languages: Java, Python, C, SQL, HTML, CSS

Frameworks & Libraries: Django, Flask, PyTorch, OpenCV, NumPy, Pandas, Streamlit, Next.js

Databases: PostgreSQL, MySQL, MongoDB

Tools: Git, GitHub, Postman, Arduino IDE, Tinkercad, Wokwi, Android SDK, Flutter

Automation & APIs: Google Apps Script, REST APIs, WebSockets

Soft Skills: Leadership, Communication, Planning, Event Management

PROJECTS

Facial Recognition Attendance GitHub

- Built and validated a **3D depth-based facial recognition system** for secure identity verification and automated attendance.
- Implemented real-time attendance updates with database synchronization and functional validation.
- Tech Stack:** Django, PostgreSQL, HTML/CSS, Face Recognition, Face Detection

Portable Milk Analyzer GitHub

- Developed a portable **AI-powered colorimetric device** for rapid microbial quality assessment of milk using embedded hardware and machine learning.
- Implemented cloud traceability and QR authentication for sample identification and result tracking.
- Tech Stack:** C, Django, MySQL, HTML/CSS, Keras

Additional Projects

- CampusCycle, Code Debugger, Letter Generator, AI Rock Paper Scissors, MathX and Charm-Hangly.**

EDUCATION

KGiSL Institute of Technology

B.Tech. in Artificial Intelligence & Data Science

Sept. 2024 – Present

Coimbatore, TN

- CGPA:** 9.2 / 10
- IPS Tech Community:** Technical Community Member

EXPERIENCE

Software Development Intern July 2026 – Sept. 2026

Pinesphere Solutions Pvt. Ltd.

Coimbatore, TN

- Architected an enterprise internship ERP system using **FastAPI, Next.js and PostgreSQL**.
- Engineered an enterprise hotel management system **automating operations, billing and compliance**.

Automation Development Intern Sept. 2026 – Current

Struzon Technologies Pvt. Ltd.

Coimbatore, TN

- Developed automation tools using **Python and APIs** to streamline repetitive workflows.
- Engineered and maintained industrial-grade software solutions using modern full-stack technologies.

ACHIEVEMENTS

- Conducted a hands-on workshop on Python frameworks with highly positive participant feedback.
- Won a hackathon at BIT in 2025 by developing an AI-powered facial recognition attendance system.
- Organized PyExpo, a Python-focused hackathon for junior students, fostering technical learning and innovation.

AREA OF INTERESTS

- FastAPI, API Testing, Agent orchestration, Generative AI, Automation tools, DSA and Problem Solving.
